

# NEW LOOKS FOR THE 24/25 WINTER.

## MID-MOUNTAIN CABINS: REIMAGINED

This utterly unique, on-mountain, ski-in only experience at RED dishes up a night under the stars with an inclusive dinner for all guests, a new Couples Suite queen bed cabin, optional baggage transportation, a full F&B bar, games, outdoor firepit, and morning breakfast options all at the beautifully-made central Clubhouse.

**The Constella: A Cabin Collective** comprises six overnight cabins and a central clubhouse, nestled far on the backside of Granite Mountain in Paradise Basin. This overnight experience provides direct skiable access first thing in the morning, guaranteeing a seriously memorable level of stoke (and fresh tracks).

Snagging a reservation at one of these eco-friendly gems with the clear Kootenay night sky fully surrounding you, will make you feel like a star. Shred. Sleep. Repeat. has never felt more accurate.

## LIFT-ACCESSED BIKE PARK WITH GRAVITY LOGIC: SUMMER 2025

RED Mountain Resort has announced that construction has begun on the new RED Mountain Bike Park, a key component of a major long-term investment and strategic four-season plan, marking an exciting new chapter for the resort. With a focus on projects that showcase the region's natural assets, RED aims to create a destination where visitors will enjoy world-class outdoor experiences year-round. The multi-year, multimillion-dollar lift-accessed bike park will be the centerpiece in transforming RED into a premier four-season hub for adventure. This ambitious 4-year plan will unfold around the Silverlode Chair, introducing an incredible variety of single track, jump and flow trails for all skill levels.

## MODERN ALPINE FLATS

The Crescent is RED Mountain Resort's newest development situated right at the base of RED with 102 homes in total. Ranging from highly efficient 426-sq ft studio suites to top floor lofts and unique, one bedroom corner suites, this new property adds valuable and largely unavailable housing to the resort.

The studio suites sleep 4 and have extensive built-ins and ski lockers located directly outside the suite entry. Our loft suites, which sleep up to six, have soaring ceiling heights and an upper floor sleep area.

The Crescent features connected spaces that offer everything you're looking for right at home. Chill spaces to socialize with your neighbours, outdoor BBQ stations for grilling out with friends, a shared work area for remote moguls, a fitness centre to stretch out and activate muscles, a communal laundry to take a load off, and even a local market for snacking out or stocking up.

## IT'S BACK: PAY-PER-RUN CAT SKIING!

We love to hear it purrrr....

Sometimes imitated, but never duplicated, we're thrilled to announce the return of our beloved and incredibly popular pay-per-run Mt. Kirkup Cat Skiing operation!

From the summit of Grey Mountain, hop off the chair and head to the pickup point to hitch a ride in our snowcat (nicknamed the Trip Wagon") to the top of adjacent Mount Kirkup.

You and 12 other guests will savour powder skiing with an incredible 2,054 foot vertical drop (626 meters) on runs that take you back to the Grey Chairlift! We're the only ski resort in Canada offering this type of cat skiing experience. No avalanche gear required or guide needed! Shred back down to the bottom of the Grey Chair or even further down to the Topping Creek Chair! Hop back on the chair and do it all over again. Your legs will need the rest!
